

Welcome to

Saint Construction Support

We help you out-think, not outspend the competition

Saint provides Business Support that differs from competitors. Saint provides a full scan of the business and has the skillset to implement the key changes providing long term results and value.

01.

Why Saint?

“To give every business owner control of their business.”

Control so you can create a better business for yourselves, a better life for your family and team with piece of mind that everything is in hand.

Saint is an all-In-one solution for businesses within the construction industry, from trades or those who operate within the industry. We have established Saint to become a strong stepping stone in every business and work alongside as Partners in success.

Saint has allowed business owners to reclaim the three freedoms; Time, Financial & Mind, therefore encouraging business owners to recover their work-life balance and grow their business.

At Saint we have become the UK's biggest Construction Support Company, and we operate on a national level.

02.

The Process

Getting Started is simple, book a discovery call with one of our dedicated Business Development Managers, we will provide simple solutions which will leave you with continuous support and a real partnership.

What Are Others Saying?

Excellent service

After consulting with Saint Financial Group regarding both general finances and business related finances I couldn't be happier! They were able to advise better ways to grow the business and manage the money surrounding the business, with friendly, professional advise. Would recommend.

- Josh Reed

Helpful, Professional Services.

With help from the Saint Financial team my business has been able to grow in ways I couldn't have imagined. This wouldn't have been possible without their professional and friendly advice. It's been an excellent experience working with team and would recommend their services.

- Conor Brook

The VA department are friendly and...

The VA department are friendly and helpful they have saved me so much time giving me my week-ends back, thank you for my gift was a really nice surprise

- Charlotte

FAQ

Is it easy to join Saint?

Very easy! We take the time to have a discovery call to really understand your business, following from that, we work together to identify the best possible solutions to reach your unique challenges, needs and goals.

What is it like working with Saint?

We put the client at the centre of everything we do, Saint has that same message drummed throughout. Client satisfaction is what we drive for.

We have added measures such as a Client Charter which means we work to a Letter of Engagement and also provide free-of-charge benefits such as:

- Quarterly Reporting
- Enrolment in the Saint Loyalty Club which provides free gifts & events
- Payment plans
- Regular contact.

Further, visit our Case Studies and Gallery to discover hands-on stories from previous clients.

Do you provide quotations?

Our solutions are built towards your exact needs, after the discovery call, we work closely with you to identify the most suitable solutions to meet your desired goals where a proposal is then put together with all needed information including investment costs.

Is there any payment plans?

Saint holds a range of payment plans from split costs to zero-interest. Please contact your account manager to see if this will apply.

Here’s the evidence - Success Story

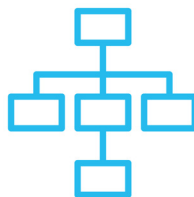

Case Study S-274

“Saint dealt with us with a real understanding of what was going on, we were so busy some times and then deadly quiet, limping through.

With a few changes, some really obvious but its was the timing they suggested which showed the value and we stuck to the plan as laid out, we didn’t think it would work but gave it a chance and it proved us wrong.

The trick taught is we now simply repeat it, we have a technique, work is busy now but we can speed it up or slow it down “

Challenges faced

Inconsistent sales patterns

Lack of internal organisational structure

High levels of stress & exhaustion

Solution

How we helped

Recognising immediately that the internal structure of the business needed to be brought up-to-date and formally structured, the team recommend a complete redevelopment of their marketing procedures which they are able to control and manipulate to their desire, but also something that will stand strong for the long-term future.

Location

South East London

Company size

£1.2 Million

Age

Est 1998

Here's the evidence - Success Story

Case Study s-118

"We just felt what was the point. What we had in the Bank as we were trying to build just got wiped out every year by the corporation tax, we did earn but couldn't get ahead. The meeting with Saint was great as they found out straight away what the problem was.

If we had carried on we would have kept making this mistake, the amazing thing is all of our friends in business are also making the same mistake and when we told them, its a game-changer.

They know the industry and know where the problems are.

Our mindset to the corporation tax has now completely changed and now look forward to seeing if we are on target."

Challenges faced

Poor Profit Margins

High Corporation Tax

Solution

How we helped

The team was able to identify problems which was embedded through the business, some small, some large. So the team first got to work to identify all the "quick wins" which we could put into place to optimise performance instantly. The team then moved onto providing a financed structured business plan for re-alignment and new goals.

Here’s the evidence - Success Story

Case Study S-71

“I contacted Saint after a friend of ours recommended them as they have been through something similar but had ended up selling their company as the best solution which is not something we wanted as a family business to do.

The one to one meetings were handled really well. We found out not just what was wrong with our business but what we were doing well.

A plan was developed for us to work to, just a small set of goals first to prove and test and we saw real positive results with the reporting.

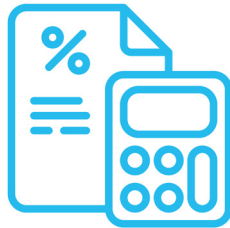

It was also a bit of an honest kick up the backside which was needed and rather than sulk we were shown and realised we were so close to getting what we wanted we had just got a bit lost.

We were actually in a great place to start again and did so with energy like we did when we first started, great really, all happier in and most important outside of work.”

Challenges faced

Falling Turnover

High Operational Costs

Solution

How we helped

The Saint team was quickly to work to carry out a delicate plan including appraisal of the management team and the implementation of Key Performance Indicators which project’s turnover to triple.
